

Maastricht University distinguishes itself as a European research university with a strong international outlook and Problem-Based Learning (PBL) as a fixed value. Its ambitious research programmes focus on current themes relevant for society as a whole. Our researchers are challenged to adopt unconventional and multidisciplinary approaches, focusing on a portfolio of carefully selected research themes of proven importance. We are an ambitious university, and invest heavily in both research and talent. Biomedical and public health research is organised in the Faculty of Health, Medicine and Life Sciences (FHML).

The FHML and the Maastricht Academic Hospital merged to form the eighth university medical centre (UMC) in the Netherlands. Top specialist care, academic education and research are some of the main tasks of Maastricht UMC+, characterised by synergy between biomedical and public health research. Its research schools carry out innovative and groundbreaking research inspired by the cooperation between medical professionals, biomedics and health scientists. The hospital departments are closely linked with the research schools in an original and integrated research and patient care chain to link research and top patient care in a truly translational manner.

We are seeking a

## Strategic Professor of Midwifery

### TASKS:

Maastricht University Medical Center (MUMC) and the University of Midwifery Education & Studies Maastricht (AVM), a Zuyd University faculty, have established a professorial midwifery chair. The research will be carried out as part of MUMC's School for Public Health and Primary Care, while AVM's research is performed within the Department of Midwifery Science.

### JOB REQUIREMENTS:

The candidate has a PhD and ample research experience in the field of midwifery, as evidenced by publications in the field; proven ability in supervising doctoral candidates; the ability to develop the research field; the capacity to acquire research grants; didactic qualities; and a passion for primary midwifery care.

Terms of employment: Fixed-term contract for 60 months. The maximum salary is € 7.142,00 gross per month in accordance with salary scale 16.
